quickmatch

CID is looking for qualified caregivers for our QuickMatch Attendant Care Registry. The registry provides affordable and reliable personal assistants to older adults and persons with disabilities. We have a high standard and are proud of our home care workers.

How Our Registry Works: CID is not your employer. You are employed directly by our consumers (either a family member or an individual) who call to find a home health aide. Our consumers self-refer to you through our online registry called QuickMatch or by recommendation from registry staff.

Who is Eligible? To be eligible, you must be an independent caregiver, not a business owner or consultant in home care or related field. The minimum requirement to apply is at least three references for homecare positions of six months or longer within the last two years. Caregivers are self-directed and are prepared to handle a wide variety of situations. You must have proof of your eligibility to work in the United States.

If you are interested in applying for the registry, contact Alexandra Manieri at 650-645-1780 ext 119 to request an application.

The San Mateo County Commission on Disabilities has been working hard to improve access!

Through the Commission's advocacy, the County has graciously committed \$1.2 million to making ADA upgrades to the Aging and Adult Services building at 225 37th Avenue in San Mateo. These upgrades will include improved paths of travel, better accessible parking, and potentially the installation of an accessible elevator.

Also, earlier this year the Commission produced the short ADA film:
You Can't Get There from Here

CID is proud to be a member of the San Mateo County Voter Accessibility Advisory Committee (VAAC).

The VAAC encourages citizen participation and provides valuable information to the Registration & Elections Division on county-wide voting accessibility matters affecting seniors and individuals with disabilities.

If you or someone you know might be interested in serving on this incredibly important committee, contact CID or check out the link below for more details

Home Accessibility Modification

Recently, we received a letter from Maria thanking us for some hand rails we installed at her home. We installed rails in the front and rear of her entrances of her residence. She thanked us for the quality of the work and for helping to make her "mobility a little easier to live with."

make her "mobility a little easier to live with."

We install ramps, rails, grab bars, vertical lifts, and other modifications to make a home more accessible.

These modifications assist people with disabilities to remain at home, or move back into their home with greater independence.
