CalFresh Program

Effective June 1, 2019 California's Assembly Bill 1811 reversed a program that excluded SSI/SSP recipients from participating in the CalFresh food benefits program. With this bill many seniors over 60 and people with disabilities may now qualify for CalFresh benefits.

In November 2019, Center for Independence started the CalFresh outreach program. CID's goal is to aid the increase of CalFresh participation for SSI/SSP household in San Mateo County. Before June 2019, many were denied of CalFresh benefits because they were receiving SSI/SSP. CID is currently pre-screening and assisting with CalFresh applications for our consumers who might qualify for the program. Even if you were denied before because of SSI/SSP, your household may now qualify. For more information about CalFresh food benefits and to check eligibility, contact CID's CalFresh outreach team today.

Work Incentives Planning and Assistance (WIPA) Program

On January 29, 2020, CID's Work Incentives Planning and Assistance (WIPA) team presented a small workshop at Bay Area Community Services (BACS) in Fairfield, California.

BACS focuses on the connections between mental health and socioeconomic disparities. BACS provides individuals with respite locations and transitional housing. BACS has locations all across the East Bay.

The WIPA team presented to a small group at one of BACS' respite locations. They were able to speak with individuals who are returning to independent living and need help understanding how their Social Security benefits might be impacted when starting work for the first time or returning to work. "I was very happy to teach the guidelines that Social Security has to individuals that are trying to better their lives and take responsibility for educating themselves by attending the our WIPA workshop," Camilla Aceves, CWIC, stated.

This is the second year the WIPA team has taught their work incentive workshops at BACS. The WIPA team plans to make this a yearly event.
